

[LuKiArt](#) vzw is a not-for-profit organisation that commits itself to giving long-term, chronically and terminally ill children a little extra joy and hope. LuKiArt wants to bring smiles to their faces by organizing art workshops (kunstateliers).

The workshops are organized both in group and individually, during which children can express their dreams and feelings in an artistic and playful way. Surrounded by people who are committed to create a positive experience, pieces of art are being created that can become lasting memories of a positive moment that can help them to remain optimistic during hard times.

Every 100 EUR that is being donated, will give one of those children the chance to become a real artist.

LuKiArt is also looking for a digital talent (i.e. you) to support them with their online communication. If you would like to also donate some of your time, please visit the following URL (in Dutch) to learn more about this opportunity: <https://dewarmsteweek.be/vrijwilligerswerk/bouw-je-mee-aan-het-digitaal-platform-van-lukiart-vzw> or contact [Sabine.Pauwaert@telenet.be](mailto:Sabine.Pauwaert@telenet.be)
